

AWARD WINNING CLUB WHIZZ RECOGNISED AS AN OUTSTANDING DESIGN

14th December, 2012

The Club Whizz has been recognised by the Design Institute of Australia for “outstanding design qualities” at an awards ceremony in Perth.

WA design company, Form Designs, were recognised for their revolutionary design of the Club Whizz in the Product Design – Industrial category.

The Club Whizz has become the must-have item on the golf course this summer.

A revolutionary new and fun way to clean his (and hers!) golf clubs - The Club Whizz® is a nifty circular brush which attaches to any golf cart wheel. It cleans clubs, golf shoes and cart tyres.

The Club Whizz® has received rave reviews since launching in September. The Golf Gear Journal described The Club Whizz® as “a must have for golfers”, Aussie Golfer.net remarked it’s a “great Aussie product” and Independent Golf Reviews says “It’s as easy as walking down the fairway”. It is also currently featured in the December issue of Inside Golf.

Interviews and product reviews available on request
